The participation fee is non-refundable and will be used to cover the costs of the qualifying races (judge room, accommodation, food and transport for the referees, hall, processing of results, etc., what remains will be used for the representation)

The selection of the national team is based on the results of the qualifying races:

27.1.2024 Kvalifikačné preteky na WAO 2024 (Pezinok) – Judge: v riešení

The qualifying races will be organized in the RSDC (Pezinok), on the artificial JUTA Grass on the Galican obstacles. The system is based on scoring points in 2 Open Jumping and 2 Open Agility runs.

These runs are tallied and a ranking is compiled based on the number of points scored. Based on their position, the team will receive points according to the given table. When awarding points, the placement of teams that are not registered for the qualification is not taken into account. Qualification will be assessed separately for each size category. In the event of a point match, the team with a higher score in

the Open Agility runs has priority. Another criterion is the number of overruns. If this number is the same, the manager and asistent of the national team will decide.

The standard time for the qualifiers is determined by the fastest time of the given run from all starting teams (even outside the qualifiers) from all size categories (even with penalty points), multiplied by the coefficient: 1.15.

Points will be awarded only to those teams that finish the given run with a mark of max. very good, without penalty points for exceeding the standard time.

A team that receives penalty points in a run for exceeding the standard time automatically gets no points.

15-x	1		

*x- are all other places that fit the conditions. Points are awarded only to teams that completed the course in the standard time to the very good mark. Teams that have a time error (exceeding the standard time) don't get points.

In each size category, the four best teams that have obtained the highest number of points after the end of the qualifying races and that meet the conditions of the selection concept will be nominated for the WAO, according to the key shown in the table below, where "yes" means entry into the given competition.

In the case that a junior handler is placed among the first four teams, the team that placed fifth in the overall table will also be nominated. In each category, two reserves will be nominated who are not participating in the WAO, but can come in if one of the nominated teams withdraws before the start of the WAO.

Due to the fact that there is also a competition for the WAO Junior World Champion title at the WAO, the winner of which will be determined by the sum of the results in all individual competitions, the following rule will be applied for the nomination: the 1st junior from the sum of all four runs in each size class will be qualified .

PORADIE	PENTATHLON	GAMES	BIATHLON	TEAMS
1.	ÁNO	ÁNO	ÁNO	ÁNO (1 beh)
2.	ÁNO	ÁNO	ÁNO	ÁNO (1 beh)
3.	ÁNO	ÁNO		ÁNO (1 beh)
4.			ÁNO	ÁNO (1 beh)
1. JUNIOR	ÁNO	ÁNO	ÁNO	

Teams: The division into teams will be determined by the manager of the national team together with the assistant, at their own discretion.

Reserve team members: Reserves will be determined based on points earned.

In case that the qualified team decides to reject the nomination for WAO2024, it must make it known by February 7, 2023. If such a situation occurs, the place will be shifted to the next one in the order of results.

Should a situation arise where the places at the WAO are not fully filled (either as a result of the result of the qualifying race or due to the capacity of some height category not being filled), the manager of the national team with an assistant has the option of choosing the teams at the WAO at their own.

WILD CARDS

The granting of wild cards is regulated by WAO regulations. Wild cards may be awarded to individual teams upon submitting a form to the WAO. Forms for the granting of a wild card are not arranged by the team manager and it is up to the individual teams only.
